

NetAccess X-Series: X10 Payment Extender

DESKTOP & LAN INTEGRATOR FOR SMALL, MEDIUM & LARGE MERCHANTS

NetAccess X-Series: X10 Payment Extender

DESKTOP & LAN INTEGRATOR FOR SMALL, MEDIUM & LARGE MERCHANTS

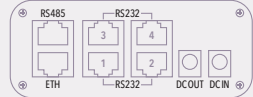

DIAGRAM: PORTS CONNECTION

CONNECTION TYPES

- Downlink EDC connections: RS232 or TCP/IP
- Uplink connections: RS485, TCP/IP

DEVICES SUPPORTED

- Up to 4 RS232 or 4 TCP/IP devices

PORT CONNECTIONS

- 4 RS232 ports or 1 RS485 + 3 RS232 ports
- 1 Ethernet port

SUMMARY OF BENEFITS

- Intelligent routing of data between interconnected local devices
- Instant upgrading of payment devices to RS485 or TCP/IP protocol
- Enables legacy dialup EDCs for RS485, TCP/IP network
- Supports up to 4 payment devices
- Facilitates contactless payments
- Energy-efficient design, may draw power from EDC power supply
